Detail-oriented **Full Stack Developer** with a passion for delivering high-performance, user-centric digital solutions. Seeking to contribute to India Today's mission of impactful journalism by building scalable content platforms and real-time news applications using Next.js, Node.js, and cloud technologies. Committed to enhancing user engagement and platform reliability in a fast-paced media environment.

PERSONAL PROJECTS

SHOPPRIXITY (JavaScript, ReactJs, NodeJs, ExpressJS, MongoDB and Prisma ORM)

🔗 Link : <https://shopprixity.vercel.app/>

Shopprixity is a platform designed to provide users with an intuitive and robust online shopping experience.

Key Features & Tech Stack:

- **Product Catalog Management:** Developed functionality to create, update, and manage product listings with dynamic categories and descriptions.
- **User Account Management:** Integrated user registration, login, and order tracking with secure authentication using **Firebase** (Google login) as well as User-based login and **JWT** for session management.
- **Shopping Cart & Checkout:** Implemented shopping cart functionality allowing users to add products, view cart, and proceed with secure checkout.
- **Payment Gateway Integration:** Integrated **PayPal** API to process payments securely, ensuring a seamless transaction experience.
- **Search and Filters:** Easy search functionality with advanced filtering options to help users find the products they need.
- **Responsive Design:** Optimized the platform for mobile, tablet, and desktop devices using **React** and **Tailwind CSS** for a user-friendly experience.
- **Tech Stack:** Frontend powered by **React JS**, **JavaScript**, **Tailwind CSS**, and **Shadcn UI**, and Backend with **Node JS**, **Express JS**, **MongoDB** with **Prisma ORM** and validations with **Vine JS**.

EXPERIENCE

FULL STACK DEVELOPER

BUSINESS TODAY TECHNOLOGY | INDIA TODAY GROUP | NOIDA, UP

📅 30th April, 2025 – Present

- **End-to-End Web Application Development:** Built and maintained full-stack web applications using React.js and Node.js, increasing feature release speed by 35% through modular architecture and component-based design.
- **Performance & Scalability Enhancements:** Optimized front-end and back-end performance using SSR (Server-Side Rendering), database indexing, and CDN caching, resulting in a 40% improvement in page load and API response times.
- **Responsive UI & Accessibility:** Engineered accessible, mobile-first interfaces with Tailwind CSS and React, ensuring WCAG compliance and consistent user experience across all screen sizes and browsers.
- **API Development & Integration:** Developed and documented RESTful APIs, integrating third-party services (e.g., OAuth2) and streamlining communication between microservices.
- **Database Design & Optimization:** Designed and optimized databases using both NoSQL (MongoDB) and SQL (MySQL), implementing efficient schemas, aggregation pipelines, indexing, and query optimization to support high-volume data operations with minimal latency.
- **Code Quality & Reusability:** Championed clean code practices, implemented utility libraries and design systems, and conducted peer code reviews to maintain codebase consistency and facilitate onboarding.
- **Team Collaboration & Agile Workflow:** Collaborated with cross-functional teams (backend developers, UX/UI designers, product managers) in an Agile environment, code reviews, and ensuring high-quality deliverables.

UI DEVELOPER

NTT DATA SERVICES | NOIDA, UP

📅 2nd November, 2020 – 24th April, 2025

- **Web Application Development & Performance Optimization:** Developed responsive, user-centric web applications using React.js, improving user engagement by 25% through enhanced UI/UX design and performance optimization techniques such as memoization, lazy loading, and dynamic imports.
- **SPA & Cross-Browser Compatibility:** Designed and built single-page applications (SPAs) with optimized load times and a streamlined user experience, ensuring accessibility and compatibility across major browsers and devices.
- **API Integration & Backend Collaboration:** Integrated third-party libraries, APIs (e.g., payment processing, geolocation, authentication), and RESTful APIs with Express.js/Node.js to extend functionality and ensure seamless data flow.
- **Database & Code Efficiency:** Utilized MongoDB for efficient data management, reducing server load by 15%, and implemented reusable component libraries to reduce development time for new features by 30%.

ASSITANT EXECUTIVE

IENERGIZER IT SERVICES PVT. LTD. | NOIDA, UP

📅 7th August, 2018 – 31st October, 2020

- **Content Moderation & Community Safety:** Monitored audio, video, and in-game scripts to enforce community guidelines, removing inappropriate content and language to foster a safe and positive gaming environment.

TECH INTERN

DIGITAL WEB SOLUTIONS PVT. LTD. | GURUGRAM, HARYANA

📅 12th June, 2017 – 12th August, 2017

- **Web Application Development & Optimization:** Contributed to the design, development, and optimization of responsive web applications using HTML, CSS, JavaScript, and Bootstrap.
- **UI/UX Collaboration:** Worked closely with design teams to implement responsive, visually appealing user interfaces, ensuring a seamless user experience across devices and browsers.
- **Code Quality & Responsive Debugging:** Developed reusable, modular code following best practices, while actively debugging and optimizing applications for both mobile and desktop responsiveness.

CERTIFICATIONS

- React JS Certification | GeeksForGeeks, Noida
- MERN Full Stack Web Development Certification | GeeksForGeeks, Noida
- Industrial Training – Python & Django | Ducat, Noida
- Industrial Training – Java & J2EE | Ducat, Noida
